Comment: Under precision instruments and optics, the figure listed in Column 2 does not equal the total of the figures in Columns 5 and 6. No reason for this difference is given.

25X1X6

Comment: Figures on the number of plants in the pharmaceutical, food and luxury items, and fuel and power industries, as of 31 January 1946, were not available; the number of plants producing cultural vares, as of the same date, is included in the figure given for the machine construction industry.

* Farmwork not included.

** including 6000 bakeries with 21,000 employees.

*** estimated number of employees.
